# 'Flipkart corners more than 50% share in festive sale'

PRESS TRUST OF INDIA  
New Delhi, October 18

**INCREASED BUYING IN** smartphones and fashion verticals helped Walmart-backed Flipkart corner more than 50% share during the first leg of the festive sale, according to research firm RedSeer Consulting.

As per RedSeer's latest report, Flipkart had a 51% share, while Amazon had 32% of the festive sale from October 9-14.

"Flipkart accounted for more than half of GMV for the entire industry. Between Flipkart

and Amazon, the share was 62-38. Higher share for Flipkart was driven by higher sales in both mobiles and fashion verticals," RedSeer said.

When contacted, an Amazon spokesperson termed the report as 'speculative' that "lacks robust and credible methodology".

"We received an overwhelming response to the Great Indian festival, with first 36 hours nearly surpassing the entire first wave last year and the entire wave growing by 96% versus last year...the festive season so far has exceeded our most aggressive plans," the spokesperson added.

Other players like Snapdeal, Paytm Mall and ShopClues also ran their fes-

tive offers and accounted for 17% share of the sales.

Flipkart in a statement said the company "pushed the boundaries on many fronts and hit some of our biggest-ever numbers during its Big Billion Days (BBD).

"We maintained a clear leadership in deep-penetrated and high ASP categories," it added.

As per the RedSeer report, the fashion and smartphone verticals grew by 78% and 70%, respectively.

However, consumer electronics grew by only 45% despite large invest-

ments by both players in supply chain and affordability initiatives like debit card EMIs, it added.

RedSeer said its report is based on interview with experts from supply chain, banking ecosystem and brands, seller views, customer surveys and other research.

The report said Day 2 of the five-day sale was the biggest in terms of gross merchandise value (GMV) as it saw the launch of multiple new exclusives in mobile phones and offers on other platforms as well.

After the second day, the growth of GMV stalled a bit, with last three days accounting for only 42% of sales compared to 60% in the first two days, it added.

grew by only 45% despite large invest-
